FOR ATTENTION: THE DIRECTOR CENTRAL BUSINESS ACADEMY

It is with great pleasure to provide this letter.

My path has crossed Central Business Academy in 2010. I undergone several courses at CBA since then which were: Facilitation, Assessor and Moderator courses. All three courses were presented and managed by Central Business Academy in a highly professional manner. I am proud to say that I have gained these three courses at CBA and do not hesitate to market their academy.

I have been the facilitator and assessor of several learnerships of which CBA provided me the opportunity. I am grateful for these opportunities and it was a privilege to work hand in hand with their personnel through all of these learnerships.

I have experienced CBA's administration as thorough and professionally organised and managed.

Up to now I have a wonderful working relationship with CBA which consist of trust, respect and honesty.

Furthermore I can add that CBA plays a high priority on making training functional and affordable to all people including disadvantaged groups. Because their courses are accredited one knows it is of high quality.

It is wonderful to know that training institutions such as Central Business Academy do care so much and are rendering service excellence to individuals, groups and communities.
