

5 June 2014

To whom it may concern;

This letter serves as confirmation of the working relationship between Central Business Academy (CBA) and Continuing Education for Africa (CEFA).

The current relationship between the two said entities dates back to February 2008 when CBA was contracted by CEFA to do project management for learnership training executed by CEFA in the Free State, Northern Cape and Gauteng provinces. Since then the relation has grown stronger and finally materialised into a full blown partnership between the two entities during 2014. Part of the initial project management agreement was to appoint suitable facilitators for the various projects, management of the entire logistical arrangements, ranging from sourcing of venues, invigilators, distribution and collection of learning materials, examination papers etc. These responsibilities were always executed with painstaking precision and high level professional conduct. All our clients were (and still are) highly satisfied with CBA's services and from CEFA's side we hope to continue with the relationship for a long time to come.

For any personal communication or more information the recipient of this communication is welcome to contact me in person at 021 8733993 or 082 573 7241.

Yours sincerely

DR K LUBBE
CHIEF EXECUTIVE OFFICER
